

Early Secondary Programme

Lesson 1.3: Pathways (30-60mins)

Activity	Tutor Notes	Resources/Timing
Introduce the session.	Download the PowerPoint and introduce the session to the pupils. Introduce the session to the pupils and show them the learning objectives for the session.	PowerPoint (download beforehand) 5-10mins
Pathways	<p>Using the slide introduce the pupils to the idea that for different jobs there will be different career pathways/learner journeys. For most jobs today you will need to go to university, college or do an apprenticeship. In their groups ask the pupils to talk about what they think they know about each of the three. You can either ask them to discuss all three or assign each group one area to focus on. This can be done with no research with pupils listing all their points as a list on a bit of paper. Alternatively, pupils can use My World of Work to research each destination and present their findings in a poster or group presentation to the rest of the class.</p> <p>After the pupils have had the time to complete their discussion/task ask them to feedback on each of the three areas in turn. Once each of the groups have had a chance to feedback, use the mind map slides to make sure you cover the main points about each of the three pathways.</p> <p>Summarise the activity by showing the pupils the 'Pathway Map' slide. Highlight to the pupils that there are no wrong or better pathways. Everyone is different and will have different aspirations. The important thing is that they know what they need to do to reach their goals and that they follow the pathway that is right for them.</p>	<p>PowerPoint 20-50min</p> <p>(length of activity will depend on group and structure of activity – this can be a quick lesson finisher or a longer group activity/project)</p>
