What is a College?

Suggested activities

- Split the pupils into groups of 2-5 and using the PowerPoint ask them to consider the questions on screen. There are several ways to run this activity. You can ask the pupils to discuss their answers; create a mind map or keep a note of their answers as bullet points. Tell the pupils not to focus on being right but rather what they think the answer is to each of these questions.
- Once the pupils have had the time to consider/write down their answers go over the questions together using the PowerPoint. Remember that the task was not to get the answers right, but to communicate what the pupils thought about college.

Next steps and related activities

- Use the content of the lesson to create a display in the classroom about college.
- Pupils can use their discussion/notes/mindmaps from the lesson as the basis of a 'college' poster activity.
- Complete lesson 2c 'What is an Apprenticeship'
